Hi-Loft²™

*running change to Hi-Loft Flex

FLEXIBILITY AND STRENGTH

Hi-Loft²™ is a specialty knitted textile manufactured with 100% polyester yarns aimed at creating a backing with bulk, strength, and unusual softness. When combined with a vinyl surface, an extremely soft-hand quality is achieved without sacrificing product performance. (Adhesion, tear strength, and stretch strength properties are also improved.)

OTHER BENEFITS INCLUDE

• Tailorability characteristics
• Ease of use during sewing
• Polyurethane foam moves easily when in contact with Hi-Loft²

HI-LOFT² USES

The complex array of Hi-Loft² patterns provide coated of applications including: Automotive Aftermarket, Universal, Corporate, Hospitality, Marine, Healthcare and Education.
